FINANCE & INSURANCE

When you decide on a Lexus, we want to make the purchase process as seamless and pleasurable as driving one of our vehicles.

Lexus Financial Services offers a range of finance options for you to choose from. For your ease and convenience, you can arrange your finance at your preferred Lexus Dealer. A range of insurance and warranty products are also available. Lexus Financial Services offers you personal finance at a competitive interest rate that is fixed for the term of your finance agreement. This means that any interest rate increases will not affect your repayments.

Just like you can adjust your Lexus to suit your personal style, you can structure the term of your Lexus finance agreement and your monthly repayments to suit your lifestyle and cash flow. You may want to lower your repayments by having a balloon payment payable at the end of the term of your finance agreement. A range of Lexus insurance and warranty products are available and can be incorporated into your finance agreement.

AL FUTTAIM MOTORS

1955, on a bright sunny day, a group of young restless men expectantly wait at the Dubai docks for a small consignment from Japan. A consignment of 28 Landcruisers and Toyopets, manufactured by the then fledgling Toyota Motor Corporation, reaches the shores of Dubai heralding the beginnings of Al-Futtaim Motors and the launch of the automotive industry in the UAE.

Today, Al-Futtaim Motors occupies the pre-eminent position of the largest distributor of automotive products in the Emirates, and leads the rapid development of automobile business in the UAE, while continuing to contribute to Toyota's worldwide growth.

Today, Al-Futtaim Motors is synonymous with Toyota and Lexus, which enjoy undisputed leadership in the UAE in terms of the largest number of vehicles on the road.

THE LEXUS STORY

The very first Lexus built was created from a potent mix of passion, commitment, and an uncompromising pursuit of perfection. To achieve the ambitious goal of creating a vehicle like no other, a rigorous, exhaustive process was undertaken. The end result was the LS 400 which represents the first chapter of the Lexus story.

Our vision for perfection

From the outset, the planning committee recognised that Lexus should set new standards of production for a motor vehicle, with goals that would supersede the world's best.

This ambitious new vehicle needed to achieve over 150mph (250km/h), return 22.5 miles per gallon (10.51/100km), noise levels had to be under 60 decibels at 60mph (96km/h) and it had to display a low drag coefficient of 29. At the time, these benchmarks were considered almost impossible to achieve, even by the Lexus planning committee.

To create luxury you must know luxury

To get inside the mind of potential Lexus owners, and to truly understand the limits of luxury, the Lexus design team did not start their journey in an engineering workshop. Instead, they set out around the world to immerse themselves in luxury.

Their travels took them to luxury waterfront homes, exclusive golf courses, multi-million dollar yachts, exquisite villas and to the workshops of the world's finest watchmakers. They studied the architecture and craftsmanship to get
